- Claims 11-21 and 23-25 are pending.

Allowable Subject Matter

[3] Claims 11-21 and 23-25 are allowed.

Examiner's Amendment

[4] An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephonic interview with Mark Bicks on 7/13/2009.

The examiner has amended the application as follows:

In the Claims:

Claim 23, line 1, delete, “22”; insert –11–;

Reasons for Allowance

[5] The following is an examiner's statement of reasons for allowance. This application has been reviewed by the examiner and meets all formal and substantive (i.e., statutory) requirements and the language of the claims is enabled by, and finds adequate descriptive supported in the application disclosure as originally filed.

The primary reason for the allowance of the claims is the presence of limitations in the independent claims, which are not found in the prior art references. The examiner believes that the record of the prosecution as a whole makes clear his reasons for allowing a claim or claims. However, the examiner would like to point out one or more specific reasons and/or limitations that the prior art fails to disclose and/or make obvious. Hence, the prior art fails to disclose the combination of the claimed limitations including a threaded ring having an actuator including a set screw having a threaded shank extending parallel to said longitudinal axis and a screw head with a head surface facing said contact surface extending perpendicular to said longitudinal axis and at said angle of inclination to said contact surface in the preinstallation state.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee, and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
